UTV WILDLAND FIRE APPARATUS

CUSTOM SPECIFICATIONS FOR:

Krebs, OK.

~ INTENT OF SPECIFICATIONS ~

It shall be the intent of these specifications to cover the furnishing and delivery of a completed fire apparatus equipped as hereinafter specified.

These specifications cover only the general requirements as to the design, type of construction, and testing to which the apparatus shall conform, together with certain details as to finish, equipment, and appliances with which the successful bidder shall conform.

Minor details of construction and materials, which are not otherwise specified, are left to the discretion of the manufacturer, who shall be solely responsible for the design and construction of all features.

Loose equipment shall be provided only as stated in the following pages.

~ QUALITY AND WORKMANSHIP ~

The design of the apparatus shall meet the most current guidelines of NFPA 1906.

The workmanship shall be of the highest quality in its respective field. Special consideration shall be given to the following points: accessibility of the various components which require periodic maintenance, ease of operation (including both pumping and driving), and symmetrical proportioning.

Construction shall be rugged with ample safety factors being provided to carry the loads specified and to meet both on and off road requirements and speed conditions as set forth under "Performance Tests and Requirements".

~ GENERAL CONSTRUCTION ~

The apparatus shall be designed with due consideration to distribution of load between the front and rear axles.

Weight balance and distribution shall be in accordance with the recommendations of the National Fire Protection Association.

~ FIRE APPARATUS WARRANTY ~

The manufacturer shall warranty the completed fire apparatus as follows:

- Materials and Workmanship – One (1) Year
